

SHYAM BISTA

Student

PROFILE

As a Computer Science student, I enjoy problem-solving through code and exploring new technologies. I have experience in Java, Python, Django, and have developed a simple Blog sharing web application using HTML, Bootstrap and Django. I am eager to apply my skills to real-world problems and stay up-to-date with the latest technology advancements. Seeking opportunities to grow professionally and work with experienced individuals who share my passion for innovation.
